George Turner, Ph.D.  
Turner Professional Group  
4010 Washington, Suite 405  
Kansas City, MO 64111

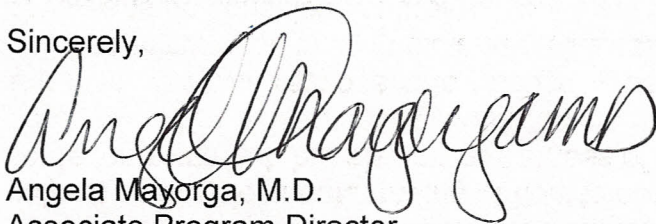

Dear Dr. Turner,

On behalf of the Department of Psychiatry and the Psychiatry Residency Program, I would like to thank you for co-facilitating a four-part seminar on sexuality for our psychiatry residents.

Your seminar helped promote an understanding of the importance of developing not only an academic understanding of how to assess for sexual difficulties in those who come for treatment, but also an awareness of the emotion generated between sexual partners and by sexual activity. I appreciate that you asked these resident doctors to examine their own responses to discussing sex. It is meaningful to have someone with both the experience in this field and an interesting, interactive teaching style help physicians be conscious of their patient's sexual behavior. I know you have helped this group be more thoughtful in their assessment of all behavioral dimensions for their patients.

Again, we thank you and very much appreciate you sharing both your time and your knowledge.

Sincerely,

Angela Mayorga, M.D.  
Associate Program Director  
Department of Psychiatry
